

Examines Underground Bunker

Evidence Convinces Newsman
Hitler, Sweetheart Shot Selves

By JACK FLEISCHER

Exclusive to The Edmonton Bulletin

BERLIN, July 5.—(UPI)—I found overwhelming—evidence at the German chancellery today to support the report I heard exactly two weeks ago in Berchtesgaden that Adolf Hitler and Eva Braun killed themselves just before Berlin fell to the Russians.

A thorough examination of the fuhrer's underground bunker behind the chancellery bore out the report made by his chief confidante, Hitler, Erich Kempka.

In Hitler's small sitting room I found against the wall a sofa where Kempka had sat. On the sofa, shot themselves to death after Hitler ordered their bodies burned no remains would fall into the hands of the Russians.

The most convincing piece of evidence was a bloodstained sofa cushion from the portion of the sofa. It was there, Kempka said, that Eva sat when she put a bullet into her heart. The cushion had been stripped of its seat and back, and on the wooden top piece of the right hand sofa a smudge. Others were on the concrete floor to the right of the sofa.

STAINS TELL

"The stains and the arrangement of the furniture and furnishings in the bunker tallied entirely with the description Kempka gave me."

I saw a large trapdoor hole in the garden about eight yards from the entrance to the bunker. There was an entrance to the hole. Hitler and Eva were burned after being saturated with gasoline. Five hours later the trapdoor was closed one side of the bunker entrance.

No sign of the remains of bodies were visible in the hole. In the weeks since the fall of Berlin, innumerable Russians and other persons have tramped through the garden and the garden door was also torn up by shells.

Two German workmen from the chancellery with whom I talked today said Kempka was among the last persons at the chancellery that day. "He should know the truth," they said.

Silicon carbide, known commercially as corundum, was first found in nature in meteorites that had fallen from the skies.

"MATE, I HAD A STICKY JOB"—"You see, mate, I had a sticky job," says Ernest Bevin. "I had to call up 7,500,000 men. But I had the grit to do it and I did it to help lick the Nazis. And I would do it tomorrow if I had to do it again."

Hun Threatened With Treatment Of War Guilty

EINDHOVEN, Holland, July 5.—(AP)—Germans in western Holland returned to discuss surrender to the Canadians last May due to the lack of food, Gen. J. G. Foukous, 1st Canadian Corps commander, threatened them with punishment as war criminals if they carried out a plan to flood Holland as a defense measure, the Canadian commander disclosed last night.

Gen. Foukous revealed several incidents connected with the surrender of the Allies to the Germans. At the same time he said the task of the Corps clearing western Holland of Germans and restoring food distribution and reconstruction was nearly over. Now there are 200,000 Germans left in the country, 2,000 of whom are being used to clear out land mines and other obstacles.

Legion Protests "Conchie" Pay Rate

VANCOUVER, July 5.—(CP)—Vancouver, B.C., branch, Canadian Legion, said last night that federal government directives increasing wages paid to members of the armed forces will be protested by the Legion.

Speaking to a group of war veterans, Mr. Macneil said that since the call-up system has been "wiped out" the Legion has been unable to get what the accent of ancient France.

Gen. Foukous revealed several incidents connected with the surrender of the Allies to the Germans. At the same time he said the task of the Corps clearing western Holland of Germans and restoring food distribution and reconstruction was nearly over. Now there are 200,000 Germans left in the country, 2,000 of whom are being used to clear out land mines and other obstacles.

The Legion's objection, he added, is that conscientious objectors benefit financially while refusing to fight for their country.

Further Parley Upon Settlement Sask. Tax Dispute

REGINA, July 5.—(CP)—Brad Scott of McGill University, who is national chairman of the CCF, met with members of the Saskatchewan government yesterday, and informed them that another meeting of the Dominion tax tribunal will be held before its decision on whether the Dominion has broken its promise to the province is handed down.

Prof. Scott is a member of the tribunal set up to determine whether the Dominion violated the taxation agreement by withholding \$582,331 due Saskatchewan, Jan. 31, 1945, and by failing to pay the needed grain debt for 1944, which Ottawa claims is owed the federal government. Mr. Justice J. G. Gillanders of the Ontario court of appeal is testing the constitutionality of the tribunal, whose third member is George H. Steer, Edmonton barrister.

French Village Honors Memory Canada Troops

OTTAWA, July 5.—(CP)—The people of the village of Courteau, in the region of Outaouais, will "never forget those soldiers who lost their rest for us," said M. Francis L'Amour, president of the Association France-Grande-Bretagne, promised in a speech by Prime Minister Mackenzie King made public here last night.

The president, accompanied with his wife and a list of Canadian soldiers buried in the area of Courteau-Sur-Mer, and requested the address of their families in Canada so that they could be written to write to them.

He pointed out in his tribute to many of the town who said it was expected the municipal council would want to perpetuate its recognition of the sacrifice made there by giving an avenue or to several squares the names of the fallen. De la Chausse, a French Canadian regiment—and of Canada.

DAY OF LIBERATION

Early in the morning of June 5, 1944, we were liberated by those of the Allies who were dearest of all to our French hearts," the president of the association wrote.

"To questions which we put to them, they replied very simply with the accent of ancient France."

"Many of them gave up their lives there. They died gloriously. But forgetfulness will never be allowed to blot out the memory of us [they have become immortal]."

"Their graves will always be covered with flowers, and will forever be a source of pride and honor for us."

"We hold our heads respectfully before the grief of those who loved them."

Reply From Premier

In his reply Prime Minister King said in the name of the Canadian people, the inhabitants of the Abitibi region, R.C.A.F. air station, and the Royal Canadian Navy.

Only one has been positively identified. It is a Liberator pilot missing in action in the Atlantic Ocean.

This wreckage was found in the Pacific Ocean on Vancouver Island this week during an intense search for a Dakota transport missing in the North Pacific.

"One of the officers who were with him was a rather poor one at that," the officer, a member of Marshal Gagarin's staff, told reporters. "We were so convinced that the body must belong to Hitler that the experts who examined the body ordered its removal to Moscow."

The officer added that no trace of any body resembling that of Eva Braun, Hitler's supposed wife, was reported to have died with him.

Thieves Return Stolen Property

NIAGARA FALLS, Ont., July 5.—(CP)—Unexpected losses reported yesterday by William L. House, former manager of the Canadian National Bank, who said he arrived at his office Wednesday, and found lost stock in three safes, which had been turned inside out, had been pushed through the metal slot.

Former Albertan Dead at Victoria

VICTORIA, July 5.—(CP)—Mrs. Ethel Lessley Taylor, 56, wife of Percival W. Taylor, died here Tuesday. Mrs. Taylor was born in Youngstown and Strom, Alta., 31 years before coming to Victoria two years ago. Besides her husband and two sons, Mr. and Mrs. Donald of Strom, and Mrs. E. Dryden of Edmonton, she is survived by her mother and one brother in England.

DOUBLE APPENDECTOMY

When Harold Rickett, of Sandusky, Mich., was operated on, doctors found two fully-developed appendices, one on either side of the body. Both were successfully removed.

During Past Week

Prospects for West Crops Improved 'Greatly' by Rains

OTTAWA, July 5.—(CP)—The Dominion Bureau of Statistics reported yesterday that prospects of grain crops in the prairie provinces were improved "greatly" during the last week by widely-scattered rains.

The bureau said in its fifth of a series of reports on crop conditions on the prairies, said temperatures were below average in the immediate period, but there was a marked improvement in south-central and west-central Saskatchewan and Alberta. Although the areas received scattered showers, it still requires further rains.

CARRY普雷西德小麦在旱地里生长。在一些地区，粗粮作物如大麦和燕麦的前景改善了。最近的降雨改善了中南部和西部中央的萨斯喀彻温省和阿尔伯塔省的谷物生产。虽然这些地区收到了零星的阵雨，但仍然需要更多的雨。小麦在旱地上生长。

CONDITIONS IMPROVED

KRUPP ON TRIAL

Early in the morning of June 5, 1944, we were liberated by those of the Allies who were dearest of all to our French hearts," the president of the association wrote.

"To questions which we put to them, they replied very simply with the accent of ancient France."

"Many of them gave up their lives there. They died gloriously. But forgetfulness will never be allowed to blot out the memory of us [they have become immortal]."

"Their graves will always be covered with flowers, and will forever be a source of pride and honor for us."

"We hold our heads respectfully before the grief of those who loved them."

Locate Wreckage Of Missing Planes

VANCOUVER, July 5.—(CP)—Wreckage of four airplanes which may contain bodies of approximately 100 men was found in the Pacific Ocean off the coast of British Columbia during the search for an aircraft missing since last week western air command announced.

Only one has been positively identified. It is a Liberator pilot missing in the name of the Canadian people, the inhabitants of the Abitibi region, R.C.A.F. air station, and the Royal Canadian Navy.

This wreckage was found in the Pacific Ocean on Vancouver Island this week during an intense search for a Dakota transport missing in the North Pacific.

"One of the officers who were with him was a rather poor one at that," the officer, a member of Marshal Gagarin's staff, told reporters. "We were so convinced that the body must belong to Hitler that the experts who examined the body ordered its removal to Moscow."

The officer added that no trace of any body resembling that of Eva Braun, Hitler's supposed wife, was reported to have died with him.

Russians Certain Charred Remains Are Not Fuhrer

BERLIN, July 5.—(Reuter)—The charred body found by Soviet officers in a concrete fuselage was definitely that of Hitler, a Russian staff officer insisted yesterday.

This wreckage was found in the Pacific Ocean on Vancouver Island this week during an intense search for a Dakota transport missing in the North Pacific.

"One of the officers who were with him was a rather poor one at that," the officer, a member of Marshal Gagarin's staff, told reporters. "We were so convinced that the body must belong to Hitler that the experts who examined the body ordered its removal to Moscow."

The officer added that no trace of any body resembling that of Eva Braun, Hitler's supposed wife, was reported to have died with him.

Leopold Delays Abdication Move

BRUSSELS, July 5.—(AP)—The newspaper Le Soir said yesterday that King Leopold III, after consulting his main advisers in Salzburg, Austria, had proposed to wait until after elections are held in Belgium to decide whether to abdicate or not.

It probably would require at least six months to hold the elections.

Former Albertan Dead at Victoria

VICTORIA, July 5.—(CP)—Mrs. Ethel Lessley Taylor, 56, wife of Percival W. Taylor, died here Tuesday. Mrs. Taylor was born in Youngstown and Strom, Alta., 31 years before coming to Victoria two years ago. Besides her husband and two sons, Mr. and Mrs. Donald of Strom, and Mrs. E. Dryden of Edmonton, she is survived by her mother and one brother in England.

DOUBLE APPENDECTOMY

When Harold Rickett, of Sandusky, Mich., was operated on, doctors found two fully-developed appendices, one on either side of the body. Both were successfully removed.

British Battleship Observes 4th July

VICTORIA, July 5.—(CP)—A British battleship, the Duke of York of the Royal Australian Navy, was reported last night to have been captured by the Japanese.

Motorman Leaves \$33,000 Estate

AND NO CLAIMANTS

WINNIPEG, July 5.—(CP)—In honour of Independence Day celebration aboard a British battleship—the Duke of York at Victoria—Australia—was reported last night that the estate of the late William Wilson, also known as Jack Adams, Winnie, a Canadian sailor, was left \$33,000 by his estate. The estate was left to his widow, Mrs. Winnie Wilson, who is now operating the Toronto General Trusts Company.

Should the estate not be claimed within 12 months, it will revert to the crown.

B. H. Pascoe, Winnipeg solicitor, said he had been unable to find a claimant.

Judge H. W. Whilla, a judge of the Manitoba Court of Appeal, said he had been unable to find a claimant.

Should the estate not be claimed within 12 months, it will revert to the crown.

B. H. Pascoe, Winnie's solicitor, said he had been unable to find a claimant.

Judge H. W. Whilla, a judge of the Manitoba Court of Appeal, said he had been unable to find a claimant.

Should the estate not be claimed within 12 months, it will revert to the crown.

Housing and Subsidy

It has become more than clear that the
housing problem which is Canada's most
immediate and urgent concern, will never
be solved by the action of private enter-
prise.

It is totally impossible for private
builders to erect homes at present build-
ing costs, that will rent at the rate the
majority of people are able to pay.

No one can afford to do it, is calcu-
lated, mostly on the basis of his in-
come, to housing accommodation. This
means that most Canadians, servicemen
and civilians, must limit their monthly
rent to between \$20 and \$30 or else upset
their entire household budget.

Private enterprise cannot supply houses
that will rent at these figures.

It seems obvious, then, that the only
answer to the pressing problem is adequate
government subsidy.

There are three essential factors in the
maturing housing subsidy:

First, speed is essential. Unless some-
thing on a sweeping scale is done im-
mediately, hundreds of thousands of Cana-
dians and certainly thousands of Edmon-
tonians are going to be homeless next
winter.

Second, adequacy is essential. There is
no use half doing it. Enough money must
be provided so that everybody in Canada
may live in decent houses.

Third, beneficiaries under the housing
subsidy must not be loaded with unpay-
able debt or unpayable rentals. Permanent
bankruptcy is just as bad a homelessness.

What is needed, then, is a plan that
operates immediately, provides adequate
funds to house everybody and supplies
the money on a non-interest-bearing basis
with a loss if need be of some of the in-
vested capital.

The Bank of Canada is the repository,
the Parliament, of the national
credit.

The government should borrow
money from The Bank of Canada, without
interest, and devote it to the immediate
construction of houses at low rentals.

This is the most serious crisis which
has confronted Ottawa since the beginning
of the war.

V

An Aesthetic Matter

With the arrival of summer and the
partial arrival of peacetime psychology,
police and at points in the country
are beginning to have difficulty with
women's hot weather costumes—just as in
the happy days of yore.

For instance, the city of Decatur,
Illinois, reports a bus with the female
sector of the public in the matter of
shorts. The police chief has issued an
order that women and older girls must not
appear on the streets in shorts which do
not reach the knee. The women are defi-
ant and insist on wearing them.

There is a common fundamental
error made by the police in dealing with such
matters of midsummer madness. They insist upon regulating women's sum-
mer costumes on the basis of morals.
That is all they do.

For people are less concerned with
being decent than they are with being
beautiful. A woman who would blithely
continue shocking the modesty of the
masses by wearing shorts a long time before
turning their stomachs.

The same walk has been completed on the
side of Jasper as far east as McDougall street.

an expeditionary force to take him by
violence, which, perhaps, would be best of
all since it would constitute a sharp lesson

All these delays and bickerings in pro-
secuting war criminals are not only adding to
the impatience of the public but are
beginning to create the dangerous suspi-
cion that the counsels of sentimentalists
might prevail with the Allies.

"Stop Staring"

Disabled veterans in a Calgary military
hospital (and we presume their view is
shared by all other disabled veterans) have
issued a protest against a projected camp-
ment to arouse public sympathy in their
pught.

In a letter to the Calgary press they
urge that efforts to set them apart from
other men be discontinued. "All we ask,"
this letter says in effect, "is that we be
regarded as everyone else and that people
stop staring."

It seems to be an eminently reasonable
request. The fundamental purpose of re-
habilitation is to merge the servicemen
back into the common stream of society.

This can never be accomplished so long
as a sentimental section of the public in-
sist on singling out amputation and
disability cases as objects of their sym-
pathetic tears.

It is surely a goodly sympathy (as
well as curiosity) can undo the whole work
of rehabilitation. Certainly it is the way
the world for the morale of men
whose only desire is to recover normally.

It is really impossible for private
builders to erect homes at present build-
ing costs, that will rent at the rate the
majority of people are able to pay.

No one can afford to do it, is calcu-
lated, mostly on the basis of his in-
come, to housing accommodation. This
means that most Canadians, servicemen
and civilians, must limit their monthly
rent to between \$20 and \$30 or else upset
their entire household budget.

Private enterprise cannot supply houses
that will rent at these figures.

It seems obvious, then, that the only
answer to the pressing problem is adequate
government subsidy.

There are three essential factors in the
maturing housing subsidy:

First, speed is essential. Unless some-
thing on a sweeping scale is done im-
mediately, hundreds of thousands of Cana-
dians and certainly thousands of Edmon-
tonians are going to be homeless next
winter.

Second, adequacy is essential. There is
no use half doing it. Enough money must
be provided so that everybody in Canada
may live in decent houses.

Third, beneficiaries under the housing
subsidy must not be loaded with unpay-
able debt or unpayable rentals. Permanent
bankruptcy is just as bad a homelessness.

funds to house everybody and supplies
the money on a non-interest-bearing basis
with a loss if need be of some of the in-
vested capital.

The Bank of Canada is the repository,
the Parliament, of the national
credit.

The government should borrow
money from The Bank of Canada, without
interest, and devote it to the immediate
construction of houses at low rentals.

This is the most serious crisis which
has confronted Ottawa since the beginning
of the war.

V

Looking Backward

From The Bulletin Files

1895: 50 Years Ago

A poster announcing the International Exhibition
to be held in Toronto in 1895 was
exhibited the previous year, presumably because it is a
Canadian enterprise. It may be remarked that the
poster is published in Cincinnati.

First steamship was launched for the season
at Freshwater Bay.

Donald McDonald leaves today for his last
winter's hunting ground on Great Slave Lake.

He has been a crown timber agent at Edmonton since 1881 and land agent as well
for the past three years, has returned from the
govt. service to the bush.

Rev. C. E. Somersett left on Tuesday's train for
Red Deer to take charge of Indian Industrial
school there.

Mr. G. H. Shubert, head of the wholesale dry goods
house of Shubert and Co., Winnipeg, was arrested
on a charge of having sold a quantity of saltpeter
which he was carrying in his car.

Mr. and Mrs. Jas. Gregg of the CPR station,
South Edmonton, left on Tuesday for Ireland.

Mr. J. C. Ross, head of the Canadian National
Railway, has married for the third time.

District News in Brief

Joined Air Force, Changed to Army, Then Transferred Back to RCAF

MILLET—Flt. Sgt. Kenneth Kerr, RCAF, returned home July 2. Born in Beausejour and educated in Manitoba, he enlisted in the RCAF in 1941. He transferred to the Army and while in England went back to the RCAF, training overseas.

He was a member of the Tiger squadron and has seen action all over Europe and Africa. Although he was never shot down, he says he was "surely shot up." During a bombing raid over Belgium, his bomb hit another plane so hard that one engine was lost completely.

After the signing of peace, he was with the crews that were ferrying survivors of war home to England.

Before enlisting, he operated a service garage in Millet, which now makes up the drivers' future work. At present he is simply resting at the home of his parents, Mr. and Mrs. Kenneth Kerr.

Only 11 Per Cent Discharged Men Take Advantage of Vocational Courses

OLDS

OLDS—The town council recently granted a building permit to the Imperial Oil Co. to construct a bus fill station near the railway crossing on Wall street. A petition has been presented to the council protesting this permission.

The following candidates were successful in receiving the Canadian Conservatory of Music examinations at Olds: (names appear in order of merit) Virginia, Mrs. Nellie Mae Clark, Margaret Sandilands, Alvin Ragaen, Barbara Vauch, Valda Klein, Georgina, Mrs. Marion Pease, Betty Rogers, Jean Knott, Sheri Herbert, Reg Turpe, Willard Bush, Margaret Benedict, June, Mrs. John Benedict, Virginia Dunlop, Horace Sondergaard, Edmund Johnson.

The following said "farewell" to George Rear this week prior to his departure to take up residence at the Park Hotel. He had been presented with a gift of a gun on behalf of the other Owls.

The Olds school boards have signed an agreement to employ a full-time shop instructor for the two schools.

FLT. SGT. KENNETH KERR

Soldier Meets Pal Of Veteran Uncle

CLIVE—A story of coincidence was told by a young man who recently returned from England. He relates that he went into a store in England to change some Canadian money in exchange for British currency. The shopkeeper, he said, asked him if he didn't like Canadians and wouldn't change it.

But the young man left to leave. The shopkeeper said, "I was just joking, soldier, what part of Canada do you come from?" The young man said, "Alberta." "Oh," said the shopkeeper, "do you know a man named Duffy?" "I always do," said Duffy, "he's my uncle."

The shopkeeper invited him into his store and showed him through where he showed it and said, "there is your uncle." The two men had been together during the First World War.

Summer Weddings Held in Alberta

GRIMSHAW—Miss Helen Miller of Grimshaw and Larry Sheek Yellowknife, were married in Yarrow on Friday and have taken up residence there.

The Rev. R. Brown and Mrs. Miller were present to conduct the ceremony. Wednesday, when delegates were present representing 11 branches. Senator present, was chairman. Mayor R. H. Jones, opened the meeting. Mrs. W. Rose gave a report.

Guest speaker was S. O. Hilliard of the Alberta department of labour on rehabilitation. He stated that according to statistics, only 11 per cent of disabled take advantage of the government's vocational training scheme.

Laura house oversaw the training of disabled in the training centre and music, he said. "What have we to offer them when we come to the point of marriage?" he asked. The need of good community centres.

Other speakers included D. C. Thornton, George Church, W. B. Schroeter, Lawrence Proudfit, Kelli Rosenberger and H. Young.

Mr. Bear was given a gift on behalf of the other Owls.

The Olds school boards have signed an agreement to employ a full-time shop instructor for the two schools.

Monster Parade Marks Stampede

PONOKA—The Ponoka Stampede was officially opened Monday by Mayor R. H. Jones, followed by the grand opening of the new Nicholas' Peanut Butter and Candy Store. Peter Stensgård, who was awarded a prize in the Indian costume, was the first to receive a gift. The stampede was opened by Mr. J. Stensgård, who carried him on his shoulders near Didsbury, Bellville, and Silver Beach. He is survived by his parents and two brothers, both of whom are in the Canadian Forces.

A committee was formed to investigate.

Plan Reception

CLIVE—Word has been received from Cpl. F. Morton that he has been promoted to sergeant. Cpl. Morton, who has been serving in the Royal Canadian Dragoons since June 26, after a short illness. Mr. Wade was born in Ottawa in 1901, and came west with his wife, Mrs. Wade, in 1923. He was educated in the Consort High School, afterward attending Camrose High School. He taught near Didsbury, Bellville, and Silver Beach. He is survived by his parents and two brothers, both of whom are in the Canadian Forces.

A funeral service was held in Lakeview cemetery, Consort.

SERVE itchy-as-can-be
NABISCO SHREDDED
WHEAT with fresh fruit! This
delicious dish is sure to please
everybody. And it's so easy to make.
We're ready to send you any
"hot-littlekin" fuses or
bothers. Everybody enjoys the
nutlike warm flavor of this
delicious cereal. Everybody
benefits from its wholesome
nourishment.

The art of diagnosis refers to the art of distinguishing one disease from another—or the art of telling one disease from another—or the determining of the nature of a case. The art of diagnosis is also called the art of the disease. It is the physician's duty to consider the history of the patient, his present and past symptoms, physical signs, and the findings of the examination, and the findings of the laboratory tests of the body.

The first step in diagnosis is the finding of the principal disease which has driven the patient to go to a doctor for help. The physician wants to know what is amiss with the patient. He asks what is wrong and the finding of the chief disorder comes first. However, the physician must go further and must recognize the presence of any other disease that may be present. The presence of these secondary diseases may profoundly change the treatment.

Further, in arriving at a good sound diagnosis there is still another factor to be considered and that is the time of compensation. It very often happens that a slow and gradual change into a chronic condition causes the physician to make up for it in some way by compensation. Other parts grow slowly and are used for the weak parts. For example, in certain abnormal heart conditions the heart enlarges and contracts harder with each beat in an attempt to get the blood through. If such compensation continues long enough the patient will probably be able to be about as active as any other person.

The physician has another duty in that he must decide what stage the disease is in. It is also a physician's duty to tell the patient what is really wrong.

All questions regarding health and diet will be answered. Large amounts of information can easily be obtained. Write on one side of paper only. Letters must not exceed 150 words. Address McCoy Health Service, The McCoy Building, 1151 West 6th Street, Los Angeles, Calif.

Canadian Navy Awaiting Day When Carriers Join Conflict

HALIFAX, July 5.—(CP)—Staunch advocate of naval air warfare, Capt. R. E. S. Bidwell, RCN, of Halifax, commander of the Canadian-manned auxiliary carrier RMS Puncher, is eagerly looking forward to the not-far-distant day when the Canadian Navy has carriers of her own.

A thoroughly-going naval man of 30 years standing, Capt. Bidwell has become completely sold on carriers since he took over command of the Puncher when she was commissioned at Vancouver in March, 1942. The Puncher, built in the United States for the Royal Navy, is manned by an all-Canadian crew except for the Royal Navy's Fleet Air Arm.

Canadian crews now are training at Fleet Air bases in Britain and the Puncher is due to join them in August.

Capt. Bidwell expects the Puncher to be available for combat in the fall. He was graduated from St. Thomas training school April, 1942, and was stationed for some time at Sydney, N.S.

Polio Increases In United States

NEW YORK, July 5.—(AP)—An increase of nearly 30 per cent in the number of poliomyelitis cases in the United States for the first five months of this year, compared with the corresponding 1944 period, was reported yesterday by the National Foundation for Infantile Paralysis.

Capt. Dan W. Gudkunst, the foundation's medical director, said there were 4,900 cases of polio in the United States through May 26, compared with 3,900 last year.

Two light undergarments will keep you warmer than one heavy one, since the air between acts as insulation.

Colorful mats in a pleasing design make fine decorations to give a lift to your veranda or bath room. Long wearing and washable. Size 27x34. Priced at \$3.29.

Today's Sport Parade

By Jack Cuddy

NEW YORK, July 5.—(BUP)—There was joy in Flatbush today and just a touch of apprehension because the doublet Dodger of them all, Babe Herman, is going to quit raising turkeys in Hollywood and come back to help "dem bums" win the National League pennant.

At least that was what President Rickey said—and with a straight face, Herman, he told the delighted Dodge baseball writers, was just the man to help Brooklyn's pennant chances because the team needed a dependable pitcher.

The Babe, who hailed originally from Buffalo, N.Y., and in his heyday was a bigger attraction than Nixon, will have to be careful to get accustomed to the surroundings in his old haunts at Ebbets Field. For one thing, not a solitary Dodger is left in the 10-man club; head all season, nor has there been any record of any one of Durocher's dandies hitting a triple and getting thrown out in a triple play at third base.

FANS APPREHENSIVE

HERMAN contributed both of those little words which others to the tune of lousy that surrounded the Brooklyn club during its stretch from 1931 to 1938. The fans are still apprehensive in the joy although they recall many a right field home and smashing extra base hits by Herman.

It will be strange to Herman to come back to a club that is in the league lead because he was more accustomed to Dodger teams that started and finished in the second division.

The 42-year-old outfielder retired in the spring to raise turkeys on his Sunland, Cal., ranch after six years as coach and rancher for the Pacific League, but he gave up the farm because Brooklyn was too much to pass up, so he says he'll be on hand as fast as he can get travel accommodations, meanwhile, minding his mail and waiting for the train.

Cubs Now Second

Dodgers Divide With Reds;
Durocher and Olmo Chased

BROOKLYN, July 5.—(AP)—**Gregg saved** Brooklyn's even split with 21 in a 10-10 Wednesday by notching his 10th win in a 5-3 second game after the Reds had eased out a 4-3 edge over the National League leaders in the stormy opening.

A like-minded Red's attack in the first with two doubles and a pair of singles, driving four runs to give Bucky Walter's verdict over Art Herring.

When the two-bagger scoring three runs in the seventh inning was ruled fair, the Dodgers protested and Manager Leo Durocher was given a 10-day suspension. Umpire John Conlan gave Luis Olmo a black eye when he tossed him over, especially after being called out in the seventh. Cincinnati 000 000 0-11 2 Brooklyn 000 000 0-10 2 Walter and Under: Herring and Peacock.

SECOND GAME

Brooklyn 000 000 0-11 2 Brooklyn 000 000 0-11 2 Head: Modak and Lakeman; Gregg and Dawson.

TWO HOMERS BY BERGAMO

NEW YORK, July 5.—(AP)—Two home runs by Augie Bergamo, one with the bases loaded in the seven-run fifth, and a 10-inning victory against Empire JoJo Conti gave Luis Olmo a black eye when he tossed him over, especially after being called out in the seventh. Cincinnati 000 000 0-11 2 Brooklyn 000 000 0-10 2 Walter and Under: Herring and Peacock.

SECOND GAME

Brooklyn 000 000 0-11 2 Brooklyn 000 000 0-11 2 Head: Modak and Lakeman; Gregg and Dawson.

WILDE! WEIRD AND WONDERFUL!

PHILADELPHIA, July 5.—(AP)—Philadelphia held off the Pirates' doubleheader sweep by winning the first game, 10-8, and losing the second, 14-3.

The Pirates' Billie Hollenbeck, the opener, returned to service a year after being suspended for pitching for three strikes and a bat.

The second game was a Pirate trap, with the Cards' Jimmie Foxx hitting 15 of his 100 home runs, and Ruth and Louder Judd, Leon and Macario, Special.

CHICAGO WINS TWICE

BOSTON, July 5.—(AP)—Bill Nicholson's second home run of the game and a 10-inning victory over the Cards gave Chicago Cubs a 7-4 National League victory over the Cards, the second game of a doubleheader. The Cards had won the first, the first 8-3 and are now in second place.

Chicago 110 000 0-11 2 Boston 000 000 0-11 2 Head: Ferrell and Williams; Williams, Hendrickson and Hodder.

SECOND GAME

Chicago 000 000 0-11 2 Boston 000 000 0-11 2 Head: Ferrell and Williams; Williams, Hendrickson and Hodder.

Signals Meet

Arrows Tonight

Border Precautions Hint Big 3 Meeting

LONDON, July 5.—(Reuters)—

Strict precautions are being taken on the frontier between Canada and the U.S. in the frontier towns of Pendeyas have been controlled because of a possible visit by Prime Minister Churchill. The Canadian government, the Spanish radio said last night.

Quoting a report from San Sebastian, the radio said it was rumored the two leaders might arrive there as early as July 10.

Official quarters in London said that if Mr. Churchill did go to Spain he would be received by King Alfonso XIII and Spanish government leader.

Another report from Spain said Churchill would be received by President Truman and that Mr. Churchill and 20 other persons were also expected there.

The British Embassy in Paris, however, was unable to confirm reports from several sources in France and Spain that the prime minister would visit either country in the near future.

Meanwhile, British officials in Paris reported that Churchill would leave for the "Big Three" meeting before the end of next week.

Crowds of the Liberators have spent as much as \$150-\$200 to have a name and a description put on the spacious noses of their planes.

Operated Until Monday

Yanks Uncover Murder Factory Disguised as Lunatic Asylum

By ARTHUR GAKESHOTT
KAUFBEUREN, Bavaria,
July 5.—(Reuters)—A wholesale extermination plant in which hundreds of men, women and children—all pronounced allegedly mentally defective or physically deformed, were killed by intramuscular injections or slow starvation had been operating here until three days ago, it was disclosed yesterday.

The pharisaic system was uncovered by two American doctors, Maj. Marvin Lintz of New York City and his assistant, Capt. Loyd S. Murphy of Memphis, Tenn., two members of the March military government public health office.

A group of 18 American soldiers who accompanied these investigators were so outraged by what they found that they refused to serve on an execution squad for those culpable.

The camp functioned in this idyllic Swissian town, 60 miles southeast of Munich, and virtually every inhabitant of Kaufbeuren was aware of the fact that human beings were both used as guinea pigs and being systematically killed.

NO GUILT SENSED

The perpetrators or passive laborers were in no way conscious of a sense of guilt and, with few exceptions, they were Germans and Nazis.

The chief nurse, who professed without coercion that she had murdered 1,000 to 200 citizens, said: "With God's help, I am innocent."

The chief doctor, Valentin Falbauer, was captured and his second-in-command Lothar Gaertner, head of his night shift, are now in American custody. Another sister confessed with a stony grin that she had poisoned 141 patients to death.

The plant which operated under the title of "lunatic asylum" had a maximum capacity of 3,000 persons and was staffed by German, Austrian, Reich and Bavarian ministers of the interior. Experiments were made for the improvement of the "race."

Starved bodies which had been living on less than one hour a day for the American investigators arrived weighed about 60 pounds apiece.

ATROCITIES KNOWN

As far as the local inhabitants knew of the atrocities, a boy selected at random was asked what the horrors were and said casually, "Oh, that's nothing." Another: "Out of bonds" signs and "lunatic asylum" notices surrounded and covered the staff buildings and, for many weeks after the Americans took the town.

A number of children still living were "A boyish" boy weighing 22 pounds with calves 2½ inches in diameter. Scabies and lice were rampant and vermin nonexistent. The investigators were not convinced that all patients were condemned to death because the staff had added side-by-side the American laught at the changed status of their jokers.

One man was reported to have been taken into custody, but service police generally did not interfere with the soldiers. More than 20 British and Canadian Provost Corps reinforcements were rushed to the district, but were not able to prevent precipitating a major fight and causing more severe damage.

Cause of the disturbance was not known, but the British and Canadian civilians who watched the outbreak said they were told by Canadian soldiers of grievances over delay in receiving pay and compensation in regard to pay while they were awaiting transport and supplies. This was the "dog-eat-dog" tactic by the Aldershot shopkeepers.

STARTS AT 10 P.M.

Rioting started about 10 p.m. after an open air political meeting which was held in the main Canadian military headquarters in a hall on the outskirts of the town. Troops gathered on street corners and then someone broke a window and started the wide-spread disturbance.

One provost officer was said to be among the rioters, but he was not identified. Other soldiers were awaiting return to Canada after long service overseas. They were not impatient and restless at the delay in getting back to their home due to the lack of ships.

REPORTS TO THE COURT

In a short time there was plain everywhere along several blocks of High Street, a scene of great mayhem with branches from it. A stone was thrown in a shop window and the storekeeper responded heavily.

Worries freely confessed that where lunatic or veronal failed he administered injections.

Poisoning was handled by doses of iodine, iodine and doses of Jannal or veronal, given in food, death occurring after two to five days. Some received chloroform, a lung ailment or pneumonia which was usually given as cause of death on certificates sent to parents or other relatives. Starving patients were given overdoses of both poisons.

HERO AT 74—Age is no barrier to gallantry in wartime. Merchant Navy service it is proven by Chan For Sui, here receiving the British Empire Medal in his 74th year. The Chinese veteran of Canadian Pacific Steamship line is now serving as a 3rd class waiter with his company at his own port—Kowloon. As a survivor of the Prince Marguerite, the 12 Canadian Pacific vessels lost during action in this war.

Demonstration Staged in U.K. By Canadians

Continued from Page One

G. P. G. Montague, chief of staff at Canadian military headquarters in London, who was not expected to be here.

NO ONE INJURED

The outbreak started without warning and the streets are littered with glass and debris today. In addition to the injuries, 20 miners, who confessed to the killing of 210 miners, drew a scathing rebuke of 200 miners who grumbled grimly at 200.

KILLED 40 PERSONS

When arrested, Sister Olga Ritter, who grinned when confessing killing between 30 and 40 persons, was not asked if she had been paid for it. She answered, "I'm a Lutheran and this is a personal matter which didn't affect me."

Others arrested included Franziska Vill, Falbauer's secretary, who was held.

PRIMARY METHODS OF EXTERMINATION

Practices at Kaufbeuren and its branch institute at Irsee were said to be identical with those at the concentration camps and the administration of chemicals. Those to be starved were condemned to receive only water, receiving a rapid starvation diet and those receiving slow starvation were condemned to live three months while the latter took considerably longer.

Poisoning was handled by doses of iodine, iodine and doses of Jannal or veronal, given in food, death occurring after two to five days. Some received chloroform, a lung ailment or pneumonia which was usually given as cause of death on certificates sent to parents or other relatives. Starving patients were given overdoses of both poisons.

EXPOSURES CHIEF

Resigns Position

OTTAWA, July 5.—(CP)—

Munition Minister Howe last night announced the resignation of R. D. Stierne, 52, director of the chemical and explosives branch of the department of munitions and supply and his replacement by Lt. Col. W. F. B. Beaumont. G. C. G. who has been controller of chemicals since 1942. Mr. Stierne will also continue in the latter post.

Bomber Pilot Became Member Of Guerrillas

BOURNEMOUTH, Eng., July 5—(CP)—W. V. T. Moore, 30, of Winnipeg, bomber pilot who was shot down over France more than two years ago, has returned to England carrying with him indisputable proof of his ability as a saboteur—and his freedom.

He has been an integral part of the greatest train-wrecking, bridge-destroying and Hun-harrasing outfit—the Special Operations Executive—of paper bearing the official stamp of the National Council of the town of Ceske Budejovice, Czechoslovakia, an RCAF release said. The certificate speaks for itself.

The National Council in Bournemouth, at No. 10, Lower Park Lane, W.O. 1, Bournemouth, Eng., RAF, Winnipeg, Canada, took part in sabotage acts of our units, as blowing up railway tracks and cutting telephone lines and similar acts.

OCCUPIED PASSES

"While the British Army was returning, he took part in occupying and securing the passes over mountains at Chirib and after our unit made connection with the British army, he was given a pass in this section by Maj. Jordan, he and our partisans guided and advanced with the British army through enemy forests to the town of Korycov."

On his arrival at his RCAF release point he was captured by the SS, he said. He was taken prisoner after being shot down and now was a POW at Camp prison at Poenchen, Potsdam, 100 miles south of Berlin. There he was tortured by the SS, he said.

He was released by the Soviet forces in command.

The Czech underground bands were supplied with guns, ammunition and other necessities by the RAF which dropped bundles to them from low-flying planes.

Afterward, Czechoslovakia was liberated. Svoboda was captured by the Gestapo, he said. He was a British officer and was taken to jail. How he got out is not known.

Svoboda claimed he was a British officer and was taken to jail. How he got out is not known.

Svoboda said he was his Czechoslovak companion perished in the blaze.

NOT DRUNKNESS

Provost officers and men and civilians were emphatic that there was no drunkenness among the rank-and-file.

The incident ended about 12:30 a.m. when the Canadian service members had secured their barracks of their own accord.

One man reported that some soldiers burned the ground in "fun town," vicinities of the town.

The Press Association placed the damage as \$10,000. The Canadian government had not confirmed and no authoritative estimate was placed on the damage.

London papers save the story front-page space and the Daily Mail quoted one soldier as saying: "As far as I know, not one was hurt during the disturbance."

ARMY HEADQUARTERS EXPLAINS INCIDENT

LONDON, July 5.—(CP)—Canadian military headquarters in a roomy residence on the outskirts of Aldershot, Hants, last night denied disturbances last night, 87 shops have been damaged, 87 windows broken and repair work on the damage will be completed within 10 days by Canadian soldiers involved in the British election.

"They are looking from the continent to see what way Britain is going to go," said Lt. Col. G. H. Abbott, chief of staff of Canadian military headquarters in a hall on the outskirts of the town. "The Canadian soldiers are awaiting return to Canada after long service overseas."

At one point, a "thunderflash"—a noisemaking powder charge used by the home guard in practice exercises exploded within 10 feet of Churchill.

He flinched slightly and halted the soldiers. "Don't hurt the little fool."

One chief constable, Laborite Leslie Clinton Attree, also finished his campaign before a crowd of 1,500 persons at Bethnal Green. He was introduced with the slogan: "For justice for fighting 'dog-eat-dog' tactics."

At one point, he said: "We are asking that, for the first time in the history of this country, a working-class party should give power to carry out a policy that puts the interests of the common man first."

CHARGE OF EXCUSES

At one point, a "thunderflash"—a noisemaking powder charge used by the home guard in practice exercises exploded within 10 feet of Churchill.

He flinched slightly and halted the soldiers. "Don't hurt the little fool."

One chief constable, Laborite Leslie Clinton Attree, also finished his campaign before a crowd of 1,500 persons at Bethnal Green. He was introduced with the slogan: "For justice for fighting 'dog-eat-dog' tactics."

SHY FROM FORECASTS

Predictions on the outcome were a dime a dozen, but most London newspapers shied away from making any forecast, preferring to let the composition of the next parliament do the talking.

Even the most optimistic Conservatives in their pre-election forecasts predicted victory only by a bare majority of the 650 seats in Commons.

To confirm the consensus, the Conservatives had to win at least 345 seats, which would give them a working majority of 50 votes over the combined opposition.

Your Baby And Mine.

By MYRTLE MEYER ELDRED
I might as well broach the subject of the second summer, because if I don't, mothers will. The second summer used to be a crucial period of babyhood. It is today only if the mother is so ignorant or so uninterested that she does not realize what constitutes its peculiar hazards.

Ordinarily, the second summer is safe through with the greatest of ease by any well-versed, well-led child. It got off bad reputations in past years when mothers were not aware of the dangers of milk when not properly bottled and refrigerated. Today, however, the knowledge that made the second summer one seemed like a mature child, capable of eating solid food.

It is true that it is at this time, between 12 and 18 months, that children grow most rapidly. This is the dangerous period. Teething need not be of major concern if the child has always had a good diet and vitamins. If the child is not growing, if the mother is indifferent to the child's diet and disrespectful of his appetite, then there is trouble.

During this period, too, when a child is running around and getting into everything, he is apt to pick up a sharp object, he may fall and scratch himself, while anything he finds on the floor, from dead flies to spoiled food, may be eaten.

And mention of flies brings to mind the second summer, when they are most abundant. There may be done away with by searching upon food which may find its way to the baby's stomach. If the food, however, is not properly kept, or improperly chilled, while this can lead to those devastating intestinal ailments, it may also bring the second summer its civil name.

Children this age are apt to be "gluttons" and if mothers succumb to the temptation to give them extra pieces of candy, the damage to their digestion can be enormous.

The only way to make the second summer harmless is to insure that this season, above all others, the child is given good food, and the arrangements that he is protected from flies; that his milk is kept ice-cold until the moment of feeding; that his vegetables and fruits are cooked (except the fresh juice he gets daily).

If the child is tired and hot and disinclined to eat, he should get less food and more cool water, and an opportunity to have an appropriate nap. Hot weather won't be a danger to him, then.

Our health, "Cure During the Summer," may be had by sending a stamped, self-addressed envelope with this request to Myrtle Meyer Eldred in care of this newspaper.

Debunker

FALLEN LEAVES SHOULD NOT BE BURNED

In the autumn, when the leaves fall rapidly from the trees, many people think they should rake them up and burn them. This is just plain foolishness, for they would destroy much valuable food and humus for the soil. The leaves should be left alone, piled, and when they have rotted to humus, they should be put in flower beds, and other places where they will do the soil good, and can burn leaves. They are too valuable to the soil.

FEAR GAMBLING MENACE
TUNBRIDGE, Kent, Eng.—(CP)—A plan to have greyhound racing on the first Sunday of each month on the ground, once headquarters of the Kent County Cricket Club, is meeting opposition from local residents who say they fear that the town's youth will "yield to the gambling temptation."

11th Air Force Head

HOBARTON, G.I. Accused
U Pictured is one of the commanders of the U.S. 11th Air Force, Maj.-Gen. Edward J. Hobart, shown standing in front of VERTICAL.

PAGE THIRTEEN TODAY'S MARKETS

Toronto Stocks

TORONTO, July 5.—(CP)—Stocks moved in a downward price slant in day session, but recovered in light volume. Industrial and gold stocks netted the week's gains. Aggregate turnover was a little heavier than on Wednesday.

By James Richardson & Sons

Plan Investigate Rhinitis Outbreak

Full investigation of an epidemic among swine of rhinitis or "bull nose" which has broken out in Alberta will be made by a committee appointed by the provincial government. After agreement was reached, it was decided at a conference of livestock officials in the province's buildings Wednesday afternoon.

O. S. Longman, deputy minister of agriculture, who presided at the meeting, said the committee would recommend the cancellation of all swine shows in the province in an effort to curb the infectious epidemic.

The meeting was attended by representatives of the Dominion Livestock branch, the Dominion Health of Animals branch, University of Alberta officials, and members of the department of agriculture.

Ontario Liberals Name House Leader For Coming Session

TORONTO, July 5.—(CP)—Forchuk Oliver, Liberal member of the Ontario Legislature from Guelph South, yesterday was elected Liberal house leader at a caucus of the 31 members of the party in the legislature. He succeeds Michel F. Hopkins, former premier, who was defeated in Elgin riding in the June 4 general election.

Announcement that the 41-year-old Princeville Ont., farmer was the new leader was made yesterday by Harry C. Nixon, member for Brant and himself former Ontario Liberal leader.

Mr. Nixon said Mr. Oliver was named only because "The Ontario leadership is a matter for a provincial convention to decide."

PADRE HAS NEW CHARGE—Shown above from left to right are Sqn.-Ldr. A. J. E. Leveque, Winnipeg, and Sqn.-Ldr. L. A. Hobson. Sqn.-Ldr. Leveque succeeded Hobson as Roman Catholic chaplain at North West Air Command, RCAF, on Tuesday.

New Roman Catholic Padre Here To Take Over Duties With RCAF

Interested in athletics of all kinds, especially among the young people, Sqn.-Ldr. A. J. E. Leveque, a native of St. John's, Newfoundland, has been appointed to the post of Roman Catholic chaplain at North West Air Command, RCAF, here. He succeeds Sqn.-Ldr. L. A. Hobson, who has been posted to Western Air command.

Sqn.-Ldr. Leveque comes to Edmonton from the first RCAF base he has been stationed since his return from overseas last August. He spent three years in England as RCAF chaplain in England.

INTERESTED IN HOCKEY

To Sqn.-Ldr. Leveque went the credit for the organization of an amateur hockey team in Canada. When he was the new RCAF chaplain in Edmonton, he organized the first peewee team in the city. From that point the game spread throughout the west until it is popular in almost every city in Western Canada.

The first minor league circuit

organized by Sqn.-Ldr. Leveque consists of the pre-peewee teams up to the age of 10, the ages of nine and 14 and four farm teams of boys between the ages of 12 and 16. The team which left Winnipeg to travel to Europe early in 1938 had five RCAF men operating and five farm teams.

His peewee team won recognition at many points throughout the United States. He took his team to Vancouver and in 1936 dispensed with the services of a coach, putting the team to a large crowd in St. Paul and Minneapolis.

Sixty Gestapo men were forced to identify themselves during the past week. Identified last night were the bodies of 120 Poles, 87 Russians, 16 French, eight Italians, 15 Belgians, 12 Slovaks, six Czechs, one

Swede and one Lithuanian. Forty-four were women and one was a child.

WEAK ARE SLAIN

There was evidence from several sources that a small number of Canadians were among the prisoners and concentration camps and massed thousands of prisoners in the giant Theresienstadt camp near Prague.

Greatest part of the week's long 100-mile march was between Geisenstadt and the Czech town of Terezin, where Theresienstadt was among those who started on the forced marches from several villages.

Heads of the weakest, including the elderly, were forced to walk and require less time to adapt himself to a job than it would take the average citizen to get used to working on a farm," he stated.

Gordon Henry, president of the club presided and Andrew McCullagh was in charge of the program.

Greek and one Lithuanian. Forty-four were women and one was a child.

Rehabilitation Problems Told To Rotarians

The attitude of some actions of the public toward discharged servicemen as a source of cheap labor will eventually lead to trouble and bitterness, if it is allowed to continue, according to James M. MLA, told members of the Rotary Club when he spoke at their Thursday luncheon meeting in the Hotel Macdonald here.

Speaking on "Rehabilitation Problems," the speaker said that by Christmas time Canadians will know whether or not they are able to solve one of the problems of peace.

UNDER TEST

"Under our government, the will of individual people will be under test when 250,000 servicemen have returned to civilian life," he said.

He claimed that vocational training schools have been asked to supply carpenters at 20 cents an hour. "The unions are asking \$1.00. He said that the request had been refused but said it pointed to the direction in which the country must go to avert the dangerous trend of the future.

He said that it was "ridiculous" for people to come in talking about returning men being psychiatric cases, or that they will have a hard time settling down.

"The ordinary returning man is not a psychiatric case. He will require less time to adapt himself to a job than it would take the average citizen to get used to working on a farm," he stated.

Gordon Henry, president of the club presided and Andrew McCullagh was in charge of the program.

EATON'S FRIDAY

Store Opens at 9:30 a.m., Closes at 5:30 p.m. Daily, Except Wednesday, 9:30 a.m. to 12:30 p.m.—To Call EATON'S, Dial 9-1-2
